

Smart Technology for Multi-Site Manufacturing Operations

Manufacturers need reliable, secure and scalable technology infrastructure to support production, logistics and supply chain operations across multiple facilities. Downtime and disconnected communication tools can disrupt production and lead to a lack of real-time visibility into performance, inventory and equipment status.

Cox Business delivers enterprise-grade solutions designed to help manufacturing enterprises streamline operations, improve performance and support business growth across facilities nationwide.

WHAT YOU'RE UP AGAINST—AND WHAT YOU CAN ACHIEVE

Challenge	With Cox Business, You Gain
Downtime disrupting production	✓ Reliable, high-performance connectivity
Limited visibility across facilities	✓ Centralized control and real-time monitoring
Cybersecurity risks in OT/IT environments	✓ Enterprise-grade cloud security and segmentation
Scaling infrastructure for growth	✓ Flexible, scalable solutions that grow with you
Disconnected communication tools	✓ Unified voice, video and messaging
Complex vendor coordination	✓ One provider for all your IT needs
Support delays across locations	✓ 24/7 monitoring and dedicated account teams
